## 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

The students admitted in the college are from diverse backgrounds and their competence-level also varies. Language proficiency, competence, familiarity with techniques and technology, subject knowledge and the extent of motivation are a few of the determining factors revealing advanced and slow learners. The slow and advanced learners are identified on the basis of marks obtained in the previous examinations as well as by classroom interactions. Advanced learners are also encouraged to access additional study materials from e-resources apart from the books available in central library. Students are inspired to organize and participate in curricular, co-curricular and extra-curricular activities. Special care is taken to bridge the gap between the required knowledge for the curriculum and competency of the new entrants through personal interaction and bridge courses. To bring slow learners in main stream, they are given personal attention and subject-related guidance. Slow learners are regularly counselled by the teachers. They are also encouraged to interact with their classmates. These students are monitored and mentored by the subject teachers. While mentoring, there is no discrimination in slow and advanced learners. So it enhances mentormediated interactions. Ultimately, students receive personal attention and guidance. Special efforts are made through library to inculcate the reading culture among the learners. Also various reference books related to the subjects are made available. Computer guided Programmes are offered through Language Laboratory for the students for the enhancement of their linguistic skills and to improve their competency.

As the curiosity leads to creativity and innovation among learners, classrooms are up-graded into ICT enabled classrooms, where classes are conducted as per the subjects chosen by the students. LCD projectors are used wherever possible to strengthen teaching and learning practices. The teachers use LCD projectors for elucidation of the various concepts incorporated in the curricula. The power point presentations (PPTs) prepared by the teachers help to increase the concentration of students in understanding some complicated concepts and phenomena. In addition, teachers also use freely available PPTs and video clips of renowned expertise in the respective subjects. The clippings offer stimulus and reduce the monotony of teacher talk. Simultaneous explanations of teacher when students observe video clips motivate them. The audiovisual experience enhances the retention of subject taught. Language laboratory is setup by the Department of English to improve interpersonal communication of the students. It is useful to express them properly, develop pronunciation, improve independent learning skills, leadership skills and understand the particular topic intensively by developing practice skills. ## 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

The students admitted in the college are from diverse backgrounds and their competence-level also varies. Language proficiency, competence, familiarity with techniques and technology, subject knowledge and the extent of motivation are a few of the determining factors revealing advanced and slow learners. The slow and advanced learners are identified on the basis of marks obtained in the previous examinations as well as by classroom interactions. Advanced learners are also encouraged to access additional study materials from e-resources apart from the books available in central library. Students are inspired to organize and participate in curricular, co-curricular and extra-curricular activities. Special care is taken to bridge the gap between the required knowledge for the curriculum and competency of the new entrants through personal interaction and bridge courses. To bring slow learners in main stream, they are given personal attention and subject-related guidance. Slow learners are regularly counselled by the teachers. They are also encouraged to interact with their classmates. These students are monitored and mentored by the subject teachers. While mentoring, there is no discrimination in slow and advanced learners. So it enhances mentormediated interactions. Ultimately, students receive personal attention and guidance. Special efforts are made through library to inculcate the reading culture among the learners. Also various reference books related to the subjects are made available. Computer guided Programmes are offered through Language Laboratory for the students for the enhancement of their linguistic skills and to improve their competency.

As the curiosity leads to creativity and innovation among learners, classrooms are up-graded into ICT enabled classrooms, where classes are conducted as per the subjects chosen by the students. LCD projectors are used wherever possible to strengthen teaching and learning practices. The teachers use LCD projectors for elucidation of the various concepts incorporated in the curricula. The power point presentations (PPTs) prepared by the teachers help to increase the concentration of students in understanding some complicated concepts and phenomena. In addition, teachers also use freely available PPTs and video clips of renowned expertise in the respective subjects. The clippings offer stimulus and reduce the monotony of teacher talk. Simultaneous explanations of teacher when students observe video clips motivate them. The audiovisual experience enhances the retention of subject taught. Language laboratory is setup by the Department of English to improve interpersonal communication of the students.
